

Federal Funding Obligations

Deliver on federal funding & financial stakeholder engagement & attendance tracking obligations.

46% of students in the USA do not complete their degree. This statistic plays a pivotal role in colleges, institutions and universities receiving federal funding from their state body. With the help of SEAtS attendance cloud software, we can help you to deliver on federal funding and financial stakeholder obligations.

Attendance Tracking Cloud

SEAtS Attendance Capture Devices will read your current student ID cards. This makes them highly cost effective and also significantly increases the speed of adoption of the solution on your campus.

Our devices use our push-to-cloud technology to reduce the need for hardware on campus. They also work on your wireless and PoE networks which means significant time and money savings on system setup, wiring and infrastructure.

SEAtS collects, process and matches attendance against class schedules. We report exceptions and deliver early warning alerts for at-risk students. A suite of compliance reports and analytics will meet all of your reporting obligations.

The SEAtS team have over 20 years' experience in this field and can advise you in the most appropriate solutions for your institution. We can provide:

- Wall-mounted Data Capture Terminals
- Portable Data Capture Solutions
- Class register via laptop, tablet or smartphone
- Third party integration including Bluetooth beacons and wireless location solutions
- Access Control Data Capture

Case Management Cloud

The SEAtS case management cloud creates one place to manage student success, all interventions, emails and reports in one place. Both academic and professional services staff have access to these tools and the student timeline that underpins.

Our case management cloud can provide rich reporting on student attendance & engagement levels which will aid your college or university in their federal funding obligations.

About SEAtS Software

SEAtS sets a new benchmark for student success with advanced early warning systems, work flows, dashboards, reports and analytics.

What SEAtS can deliver for your institution:

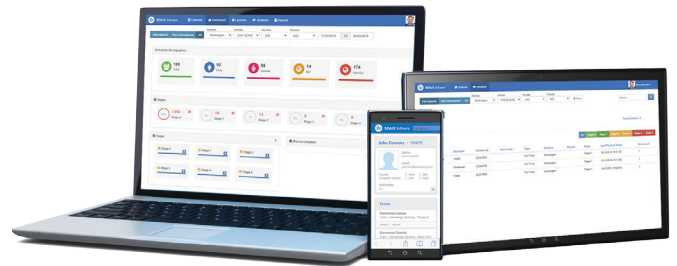

- Retain students through critical early informed interventions.
- Increase completion through better analytical insights into progression.
- Enhance reputation through improved student satisfaction and outcomes.
- Enhance resource and space utilization with instant analytics.

How it Works

SEAtS works by sitting above and drawing information from whatever student record, scheduling and other systems you have in place. We do not look to change what you have simply to add value.

SEAtS Software provides:

- Early Warning Systems.
- Cloud Based.
- Real Time Data.
- Increased Completion.
- Enhanced Reputation.
