

Solution Delivery

Solution Delivery is where strategic planning meets real-world application. SEAtS choose a deployment strategy aligned with your institution's strategic objectives.

Deployment Options Tailored to Your Institution:

SEAtS Software Solutions Delivery Approach offers a number of tailored options to assist in the adoption of our solutions across your campus.

SEAtS Assist:

SEAtS deployment is carried out by personnel from within your institution. Our professional services team act in a supporting capacity only where we provide comprehensive training services to your project team.

SEAtS Mentor:

SEAtS professional services team completes the bulk of the initial effort, with your team shadowing and supporting. Later your team will assume the primary role with SEAtS personnel moving to support roles only.

SEAtS 360

The 'turn-key' approach, our personnel take the responsibility for the entire project life-cycle. Your team offer advisory and technical support to the project.

Whatever SEAtS development model you choose, we ensure that your team are always informed via a dedicated project manager who provides detailed progress reports and consistent updates on project status, milestones and deliverable.

Additional Options

Furthermore, SEAtS Professional Services Team delivers a broad selection of optional services designed to further enhance your institutions SEAtS deployment strategy, including:

Tailored Documentation

SEAtS ships with standard user guides and online help. To encourage usage and adoption, manuals can be tailored to meet your institutions culture and specific policies and procedures.

Automated Testing

SEAtS can assist you to develop, build and run robust automated test harness methodology to ensure changes and updates to your existing environment do not affect the current configuration.

Tailored Reports & KPIs

Specific reports, KPIs and dashboards requested by the customer can be deployed through SEAtS Analytics. These bespoke options offer additional strategic and tactical insight into the day-to-day activities of your institution. current configuration.

Change Management

Our team can assist in the design and execution of a comprehensive internal communications program aimed at proactively informing students and staff of changes and benefits that they experience from SEAtS, as well as encouraging student and staff engagement and adoption of the SEAtS Student Success Platform.

About SEAtS Software

SEAtS sets a new benchmark for student success with advanced early warning systems, work flows, dashboards, reports and analytics.

What SEAtS can deliver for your institution:

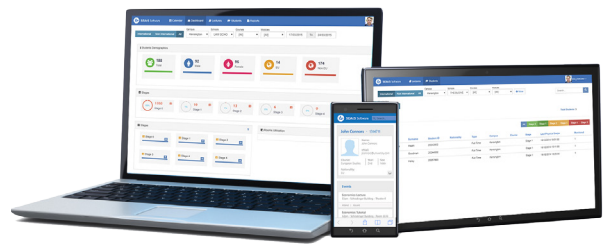

- Retain students through critical early informed interventions.
- Increase completion through better analytical insights into progression.
- Enhance reputation through improved student satisfaction and outcomes.
- Enhance resource and space utilisation with instant analytics.

How it Works

SEAtS works by sitting above and drawing information from whatever student record, timetabling and other systems you have in place. We do not look to change what you have simply to add value.

SEAtS Software provides:

- Early Warning Systems.
- Cloud Based.
- Real Time Data.
- Increased Completion.
- Enhanced Reputation.
