

Attendance Tracking Cloud

SEAtS Software the student success platform allows universities, schools & colleges to maximise growth through student attendance monitoring & management.

When it comes to data capture for proof of presence, engagement and student attendance monitoring in HEI's there really is no one right approach, but there is a single solution.

SEAtS believe that a hybrid solution that matches the requirements of the individual schools, departments and courses offers the right approach.

Key Benefits

What we do

SEAtS Attendance Capture Devices will read your current student ID cards. This makes them highly cost effective and also significantly increases the speed of adoption of the solution on your campus. SEAtS devices use our push-to-cloud technology to reduce the need for hardware on campus. They also work on your wireless and PoE networks which mean significant time and money savings on system setup, wiring and infrastructure.

The SEAtS team have over 20 years' experience in this field and can advise you on the most appropriate solutions for your institution.

Data capture solutions

SEAtS data capture solutions address every student touch point :

- Wall-mounted data capture terminals
- Potable data capture solutions
- Cell phones and tablet based solutions
- Class register via laptop, tablet or smartphone
- Third party integration including blue-tooth beacons and wireless location solutions
- Access control data capture

What does this mean for your campus

SEAtS Student Attendance Monitoring will deploy fast and integrate with other systems on your campus. Wiring and installation costs are minimised too. SEAtS instant on cloud platform means that reports, alerts and dashboards work as soon as you switch on SEAtS.

About SEAtS Software

SEAtS sets a new benchmark for student success with advanced early warning systems, work flows, dashboards, reports and analytics.

What SEAtS can deliver for your institution:

- Retain students through critical early informed interventions.
- Increase completion through better analytical insights into progression.
- Enhance reputation through improved student satisfaction and outcomes.
- Enhance resource and space utilisation with instant analytics.

How it Works

SEAtS works by sitting above and drawing information from whatever student record, timetabling and other systems you have in place. We do not look to change what you have simply to add value.

SEAtS Software provides:

- Early Warning Systems.
- Cloud Based.
- Real Time Data.
- Increased Completion.
- Enhanced Reputation.
